## EXPERIENCE

### Frontend Developer

#### Jobchain

 11/2024 Present  Argentina

- Responsible for the development of the messaging and contact management system for the web version of the company's application, following the design and styles defined in Figma.
- I work with different APIs, stanza.js and ejabberd as XMPP server, and interact with the 10 members of the development team, HR Director, CTO and CEO.

### Full Stack Developer

#### Freelancer

 08/2022 11/2024  Argentina

- Develop web applications
- Collaborated with small teams on debugging and testing.
- Served as Scrum Master, facilitating agile ceremonies and promoting team collaboration.

### Head of Operations

#### Correo Argentino

 03/2020 05/2024  Argentina

- Led a team of over 3,000 people across 68 operating plants in the metropolitan area of Buenos Aires, including Capital Federal and Greater Buenos Aires.
- Managed the comprehensive distribution logistics, overseeing a fleet of nearly 1,000 vehicles to ensure operational efficiency and punctuality.
- Implemented process optimization and logistics coordination strategies, improving delivery times and reducing operational costs, contributing to the company's corporate objectives.
- Directed electoral logistics in the region, coordinating the deployment and collection of electoral materials with precision, transparency, and strict deadline adherence.

### Head of Management and Process Control

#### Correo Argentino

 07/2005 03/2020  Argentina

- Led a team of 15 professionals, including auditors and analysts, with a dual focus on developing and monitoring key performance indicators (KPIs) and managing operational processes.
- Responsible for designing, implementing, maintaining, and controlling various KPIs, ensuring they accurately reflected organizational performance.

- Designed and optimized critical operational processes, overseeing their execution and implementing corrective actions when deviations were identified to ensure compliance with quality and efficiency standards.
- Played a key role in aligning KPIs and processes with the organization's strategic objectives, significantly contributing to improvements in operational efficiency and quality.

## EDUCATION

### Full Stack Developer

## SKILLS

HTML	CSS	JavaScript	React
Express	Node.js	Jasmine	
Jest	MongoDB	Firebase	SQL
Python	NestJS	Next.js	
Bootstrap	Tailwind	WordPress	
TypeScript	Stanza.js		

## SUMMARY

Hello, I'm Mariano Hilario. With a solid track record in operational management and process optimization in large organizations such as Correo Argentino, I have led teams and improved operational efficiency. In recent years, I have specialized in full-stack web development, acquiring skills in HTML, CSS, JavaScript, TypeScript, Node.js, React, and more. My experience combines an analytical approach with a passion for technology, allowing me to create innovative and efficient solutions. I am looking for opportunities to apply my technical knowledge and leadership skills to drive web application development and improve business profitability.

## EDUCATION

### Bachelor of Business Administration

#### Catholic University of Salta

01/2001 01/2005

Argentina

- I obtained a Bachelor's degree in Business Administration from the Catholic University of Salta, Argentina, where I gained the necessary skills and knowledge to effectively manage an organization. My education provided me with a solid foundation in business administration, including accounting, financial management, human resources management, operations management, marketing, and project management. Additionally, I developed strong decision-making abilities, data analysis skills, and the capacity to solve complex business problems

### Electronics Technician

#### Technical education school No. 8

01/1995 01/2000

Argentina

- I completed my education as an Electronics Technician at Technical School No. 8 in Argentina, from January 1995 to January 2000. This secondary-level program provided me with a strong foundation in the design, installation, maintenance, and repair of electronic systems and equipment.
