PROFESSIONAL SUMMARY

Fullstack Developer with 20+ years of experience in operational leadership and project management, who made a successful career shift into software development. I combine my background in optimizing large-scale logistics with solid technical skills in modern technologies like React, Next.js, TypeScript, Node.js, NestJS, and PostgreSQL.

I have led teams of over 3,000 people, implemented process improvements that reduced delivery times by 30%, and coordinated high-impact national operations such as electoral logistics. Today, I bring the same results-driven approach to building scalable and efficient digital solutions.

- Coordinated national electoral logistics under high-pressure, high-accountability conditions.

Process & Performance Manager

Correo Argentino
Jul 2005 – Mar 2020
Argentina

- Led a 15-person team of auditors and analysts in KPI design, monitoring, and process optimization.
- Designed and improved key operational processes, aligning them with strategic goals.
- Identified deviations and implemented corrective actions to maintain efficiency and quality standards.

PROFESSIONAL EXPERIENCE

EDUCATION

Fullstack Developer

Henry

 Mar 2024 – Nov 2024

 Argentina

The course focused on Full Stack development, which provided me with comprehensive skills in both frontend and backend web development.

Fullstack Developer

CoderHouse

 Mar 2022 – Jun 2023

 Argentina

I completed the Full Stack Web Development program at CoderHouse in Argentina. The course focused on Full Stack Development, which gave me comprehensive skills in front- and back-end web development.

Bachelor's in Business Administration

Universidad Católica de Salta

 Mar 2001 – Dec 2005

 Argentina

I acquired the skills and knowledge necessary to effectively manage an organization. My training provided me with a solid foundation in business administration, including accounting, financial management, human resource management, operations management, marketing, and project management. I also developed strong decision-making skills, data analysis abilities, and the ability to solve complex business problems.

Electronics Technician

Technical School No. 8

 Mar 1995 – Dic 2000

 Argentina

I completed my training as an Electronics Technician at Technical School No. 8 in Argentina. This secondary school program provided me with a solid foundation in the design, installation, maintenance, and repair of electronic systems and equipment.
